

South Cambridgeshire Local Plan

Schedule of Proposed Modifications (March 2016)

Proposed Main and Minor Modifications to the South Cambridgeshire Local Plan

There are separate tables for Main and Minor Modifications to the Local Plan. The Inspectors are concerned with proposed Main Modifications necessary to make the Plan sound. Minor modifications are a matter for the Council.

Main Modifications - are those that materially affect the submitted Local Plan, which are required to ensure that the plan is sound and legally compliant.

Minor Modifications - are those where they will not impact upon the intent or interpretation of the plan, or go to the heart of whether the plan is 'sound' or not. The minor changes outlined are changes such as typographical errors and factual updates.

Minor modifications put forward when the local plan was submitted to the Inspector (in March 2014) that relate to modifications to policies or paragraphs in this consultation have been incorporated into these new proposed modifications for completeness. These previously submitted modifications had their own unique identifying number which is referenced in the reason for proposed modification.

The modifications are set out in plan order. Where it has not been possible to show information (such as tables, diagrams and maps) within the table, these are provided below each respective table of modifications.

The tables for both main and minor modifications include the following information:

Proposed modification number:	Proposed modification number for reference. The reference number is composed as follows: Proposed Modification/Section or Appendix number/Unique number for change.
Policy / paragraph number / site reference:	The section of the Submission South Cambridgeshire Local Plan 2014.

Chapter 2 Spatial Strategy			
PM/SC/2/A	Paragraph 2.11	<p>Amend paragraph 2.11 as follows:</p> <p>The local authorities in the Cambridge Sub Region Housing Market Area have been working together for some time on a range of planning and housing issues and have prepared a joint SHMA, which was updated to inform the new Local Plans being prepared by Councils in the area. The Cambridge Sub Region SHMA 2012 identifies the objectively assessed need for housing in South Cambridgeshire and all other districts in the Cambridge Sub Region housing market area for the period 2011-2031 (Chapter 12). The SHMA considers jobs forecasts as a key part of the analysis of the overall number of homes required to meet the development needs of the area for the period 2011 to 2031. It identifies the objectively assessed need for 22,000 additional jobs and 19,000 new homes in South Cambridgeshire. <u>Additional independent technical evidence was prepared in 2015 to further consider need for new housing taking account of national guidance</u></p>	To reflect the updated Local Plan Evidence prepared in 2015 in response to the Inspectors Letter regarding Objectively Assessed Need for Housing, and how it was considered by the Councils.

<p>PM/SC/2/B</p>	<p>Add a new paragraph after paragraph 2.12</p>	<p>Add new paragraph 2.12a to read:</p> <p><u>A Memorandum of Understanding was also agreed between Cambridge City Council and South Cambridgeshire District Council in September 2014, which agrees that the housing trajectories for Cambridge and South Cambridgeshire, as updated each year in the Annual Monitoring Report, will be considered together for the purposes of phasing of housing delivery, including for calculating 5-year housing land supply in development management decisions that concern housing development.</u></p>	<p>Positively prepared and justified. The joint housing trajectory reflects the close functional relationship between the Councils, the joint development strategy and the way that strategy is being built out, in particular that sites on the edge of Cambridge are building out from the built up area in Cambridge and have not yet reached or started building over the administrative boundary is South Cambridgeshire. It is about the phasing of housing delivery, not overall housing provision. Modification relates to the changes required to give effect to the Memorandum of Understanding between Cambridge City Council and South Cambridgeshire District Council: Greater Cambridge Joint Housing Trajectory (September 2014, RD/Strat/350). This modification was attached to the Councils’ Matter 1 Hearing Statement.</p> <p>Effective. The Memorandum of Cooperation is made under the Duty to Cooperate as part of the Councils working closely together to ensure delivery of suitable development to meet their objectively assessed needs.</p>

			<p>Consistent with national policy. National policy requires Councils to meet their objectively assessed needs and national practice guidance allows for Councils “to deal with any undersupply within the first 5 years of the plan period where possible. Where this cannot be met in the first 5 years, local planning authorities will need to work with neighbouring authorities under the ‘Duty to Cooperate’.</p>
PM/SC/2/C(i)	Add new paragraph to paragraph 2.17, 3rd bullet point	<p>Paragraph 2.17, 3rd bullet point: add new 5th paragraph to read:</p> <p><u>In response to issues raised by the Inspectors during the Local Plan Examination, the Councils commissioned a new independent Inner Green Belt Review in 2015. This also concluded that beyond those locations already identified in the submission Local Plans it is unlikely that any development could be accommodated without substantial harm to Green Belt purposes (in most locations around the edge of the City). Additional work was carried to consider sites on the edge of Cambridge on an equal basis with other sites, through transport modelling and Sustainability Appraisal. Work was also undertaken on an updated Infrastructure Delivery Study and</u></p>	To reflect the updated Local Plan Evidence prepared in 2015 in response to the Inspectors Letter.

The Development Strategy Update and the Joint Sustainability Appraisal Addendum set out how the issue of Green Belt was considered through the plan making process, meeting the requirements of paragraphs 84 and 85 of the NPPF to consider the sustainability impacts of developing outside the Green Belt compared with removing land from the Green Belt for development. This work confirmed that the approach to the development strategy. Further work was also undertaken to demonstrate that the transport measures necessary to support sustainable new settlements are capable of being delivered. The Greater Cambridge City Deal provided a position statement in March 2016 that confirms the City Deal partners are wholly committed to delivery of the infrastructure programme for the benefit of existing and future residents and businesses through the provision of an enhanced transport network that provides good quality connectivity between homes and jobs, including supporting and securing new</u></p>

PM/SC/2/E(i)	Paragraph 2.21 (table)	Amend the headings and figures in table at paragraph 2.21: <i>Refer to table at the end of this schedule.</i>	To update the housing land supply position, reflecting the latest monitoring information, changes in the anticipated delivery rates on major sites, and modifications proposed elsewhere in this schedule.

PM/SC/2/G	Paragraph 2.32	In light of the results of consultation, the Council deferred a decision whether or not to propose a modification to allocate an extension to Cambridge Biomedical Campus pending further work with the landowner to further explore the suitability and deliverability of this site. NOTE: Includes a PROVISIONAL MODIFICATION to amend paragraph 2.32 as	To reflect the updated Local Plan Evidence prepared in 2015 in response to the Inspectors Letter, and consequential modification to reflect the Main Modifications PM/SC/8/A and PM/SC/8/B.

Given the level of need for homes and jobs, it is considered that exceptional circumstances exist to justify their release. These comprise a site between Huntingdon Road and Histon Road as an extension to the housing allocation carried forward from the Local Development Framework (Policy SS/2) and a site on Fulbourn Road as an extension to the Peterhouse Technology Park (Policy E/2). <u>The independent Inner Green Belt Review 2015 for both Councils reached the same conclusions about the importance of land on the edge of Cambridge for Cambridge Green Belt purposes with two differences. PM/SC/2/H	Policy S/5 Provision of New Jobs and Homes	<p>Amend Policy S/5(b) housing requirement as follows:</p> <p>19,000 19,500 new homes, including affordable housing and 85 Gypsy & Traveller pitches.</p>	<p>Positively prepared and justified. Additional evidence prepared in 2015 considered Objectively Assessed Need, particularly in relation to the latest household projections data and whether market signals and affordable housing indicated the need for any uplift to the national household projections starting point. This identified that the need was slightly higher than 19,000 homes, at 19,377. In response, an increase to the requirement in the Local Plan to a rounded figure of 19,500 homes is proposed.</p> <p>Effective. PM/SC/2/L	Paragraph 2.39	<p>Amend paragraph 2.39 as follows:</p> <p>Over the plan period, the figure of 49,000 <u>19,500</u> new homes implies an average delivery rate of 950,975 homes per year. While less than the Core Strategy 2007 annualised average of 1,176 homes, for comparison over the period 2001 to 2011 a total of 7,663 homes were built at an average of 766 homes per year and the Local Plan therefore represents a consistent step change in housing delivery over a lengthy period. <u>The phasing of housing delivery is dealt with in Policy S/12.</u></p>	Modification required to ensure that the supporting text is consistent with the proposed modification PM/SC/2/H.
PM/SC/2/M	Paragraph 2.40	<p>Update paragraph 2.40 to show the latest housing land supply position:</p> <p>Taking account of all forms of housing supply, comprising: completions in 2011-1542 (the first <u>four years</u> of the plan period) of 696 <u>2,735</u> homes; supply of housing on the major sites <u>existing allocations in adopted plans (including those with planning permission)</u> expected by 2031 of 11,143 <u>8,771</u> homes; and commitments on smaller rural sites with planning permission or allocated for 2,220 homes <u>unallocated sites with planning</u></p>	To update the housing land supply position, reflecting the latest monitoring information, changes in the anticipated delivery rates on major sites, and modifications proposed elsewhere in this schedule.

		<p>permission of 1,179 homes; and the Council's forecast windfall allowance of 2,450 homes, in 2012 2015 the Council had a supply of 44,000 15,135 homes towards the 49,000 19,500 home target requirement. This required sufficient new land to be identified to deliver a further 5,000 <u>4,365</u> new homes in the district between 2011 and 2031.</p>	
PM/SC/2/N	Policy S/6: The Development Strategy to 2031	<p>Amend part 3 of Policy S/6 as follows:</p> <p>3. A major expansion of Cambourne for a fourth linked village of 1,200 homes, all of which by 2031. 	<p>Positively prepared and justified. The site promoters consider that they could start development sooner and deliver higher annual rates of housing completions. Whilst the Council is taking a cautious approach to these matters in its housing trajectory based on available evidence of the time taken to start strategic developments and to provide a greater level of confidence of the delivery of the housing requirement, it would not be positive planning for the Local Plan policy to prevent such development if it proves to be deliverable.</p> <p>Effective. PM/SC/2/Q	Paragraph 2.45	<p>Amend paragraph 2.45 as follows:</p> <p>Two new settlements – a new town north of Waterbeach and a new village at Bourn Airfield - and a major village expansion at Cambourne will provide the majority of the additional housing required by 2031. The preference to allocate all three strategic sites was influenced by the long lead in times for new settlements which will therefore come forward later in the plan period and continue developing beyond 2031. Without including a major expansion of Cambourne, a significant amount of development would be required at villages and would result in the sort of dispersed development strategy confirmed as being unsustainable. The timing of development at Bourn Airfield new village has regard to the longer lead in times for the development of new settlements and so that the remainder of Cambourne is well progressed before any development starts at Bourn Airfield. This will also help provide additional flexibility and ensure a continuous supply of house building land. The new strategic sites will provide 4,370 homes in the plan period. This modification was attached to the Councils’ Matter 1 Hearing Statement.</p> <p>Effective</p> <p>Cambridge City Council is demonstrably delivering housing within the urban areas and urban fringe sites in the early and middle parts of the plan period. South Cambridgeshire District Council is committed to delivery of housing in the urban fringe sites and at new settlements, with an emphasis on the middle and latter parts of the plan period, but with an element of village housing allocations to provide some early delivery. This is a logical and appropriate way of delivering sites that meet the combined housing need across the Greater Cambridge footprint area.</p>

Whilst the Council is taking a cautious approach to start times in its housing trajectory based on available evidence of the time taken to start strategic developments, it would not be positive planning for the Local Plan policy to prevent such development if it proves to be deliverable.</p> <p>Consistent with National Policy The Memorandum of Understanding agreement is a duty to co-operate statement under paragraph 035 of the NPPG.</p>
PM/SC/2/S	Paragraph 2.60	<p>Amend paragraph 2.60 as follows:</p> <p>An important aspect of the Local Plan is to ensure that there will be a continuous supply of suitable, available and deliverable housing land to meet housing needs over the whole of the plan period. The allocations in the Plan have been made with the aim of ensuring a flexible and continuous supply of housing. To this end, the Council does not propose to phase the timing of housing development. except in two important cases:</p> <p>1. New town at Waterbeach Barracks – It is</p>	<p>Modification required to ensure that the supporting text is consistent with the proposed modification PM/SC/2/R.</p>

Proposed main modification number	Policy / paragraph number / site reference	Proposed main modification to the South Cambridgeshire Local Plan	Reason for proposed modification
		<p>not expected that the new town will be able to deliver housing until towards the end of the plan period. This takes account of considerable experience in delivering new settlements in the district (Bar Hill, Cambourne and Northstowe). The Plan therefore takes a realistic view of delivery of a new town which is partly about the development needs in the plan period to 2031 but allocation is also about development needs in the period beyond and the recognition that given the long lead in time that, like Northstowe, if a new town is to form part of the long term development strategy, a decision to allocate needs to be made in this Local Plan. In reaching this view, the Council has allocated significant major sites elsewhere to provide for needs in the most sustainable way. Therefore to ensure a continuous supply of house building land, it would not be appropriate for Waterbeach to come forward significantly earlier than envisaged in the housing trajectory and more significantly, to avoid competition with delivery at Northstowe and Bourn Airfield with negative impacts on those other developments. Therefore, Waterbeach is phased to start delivering housing in 2026 and any earlier provision can only take place through</p>

		<p>a review of the Local Plan.</p> <p>2. ——— New village at Bourn Airfield — Given the expected level of delivery at Waterbeach new town, the new village at Bourn Airfield is also required to deliver housing in the plan period to ensure a sustainable pattern of development and not require significant levels of housing in a distributed pattern across existing villages. However, to provide flexibility and not to rely solely on major developments given their lead in times and greater vulnerability to slow down in adverse economic conditions, based on recent experience, the Council sees a need to allocate some development in existing villages. The start of development at Bourn Airfield should not start delivering housing until 2022 as part of a flexible package of sites and to ensure a continuous supply of house building land. However, if there were delay in delivery in other major sites, the Plan allows for Bourn Airfield to come forward earlier.</p>

This represents an average of 950 975 homes a year but the delivery of homes will vary over the plan period responding to individual site circumstances and changes in the national economy. As outlined in paragraph 2.12a, the Councils have agreed that the housing trajectories for both areas be considered together for the purposes of housing delivery, including calculation of 5-year housing land supply in development management decisions that concern housing development. This is consistent with the development sequence and spatial development strategy for Cambridge and South Cambridgeshire, and the phasing of housing delivery reflecting that strategy. As such, sites at the top of the development sequence in and on the edge of the urban area of Cambridge will deliver in the early and middle part of the plan period. Chapter 2 Spatial Strategy			
MM/SC/2/A	Paragraph 2.17, 4 th bullet point, 1 st paragraph	<p>Paragraph 2.17, 4th bullet, 1st paragraph: add additional sentence to the end of the paragraph:</p> <p>The Councils undertook a joint Sustainability Appraisal of the overall strategy as part of the plan making process. A range of options around the impact of different levels of growth in the Green Belt on the edge of Cambridge, the approach to new settlements, major expansion of Cambourne and the best available sites at villages were identified and tested through Sustainability Appraisal, to consider the relative impact of different development packages. This included looking at different levels of growth at some of the site options to minimise adverse impacts and secure the most sustainable form of development. It identified the importance of balancing the accessibility aspects of sustainable development and the environmental and social aspects. <u>This appraisal was updated in 2015, to take account of new evidence prepared in response to Inspectors during the Local Plan</u></p>	To reflect the updated Local Plan Evidence prepared in 2015 in response to the Inspectors Letter.

MM/SC/7/A	Paragraph 7.59	<p>Add a sentence to the end of paragraph 7.59 as follows:</p> <p>The Government's Planning Policy for Traveller Sites requires that local planning authorities set targets for the provision of Gypsies and Traveller pitches and Travelling Showpeople plots which address the likely site accommodation needs of travellers in their area, working collaboratively with neighbouring local planning authorities. <u>This policy document was updated in August 2015 to include a new definition of 'gypsies and travellers' for the purposes of planning policy.</u></p>	<p>Consistent with national policy.</p> <p>On 31 August 2015, the Government published Planning Policy for Traveller Sites which should be read in conjunction with the National Planning Policy Framework. The new planning policy document redefines 'traveller' in planning policy to exclude those who no longer travel permanently. The glossary contains this revised meaning in Annex1 page 9 of the publication.</p> <p>Minor modification to ensure consistency with modified policy wording.</p>
MM/SC/7/B	Paragraph 7.78	<p>Amend paragraph 7.78 to read as follows:</p> <p>This policy addresses specific design principles that should be met by all new Gypsy and Traveller sites or Travelling Showpeople sites. MM/SC/7/C	Paragraph 7.79	<p>Amend paragraph 7.79 to read as follows:</p> <p>Gypsy and Traveller caravan sites are predominantly residential uses. This is established by government guidance on designing Gypsy and Traveller sites and is reflected in South Cambridgeshire. Any employment uses would require planning permission, and could therefore be considered on their merits in the particular location. However, Travelling Showpeople may require space for the storage and maintenance of large pieces of equipment. The site design and layout should ensure the amenity and safety of residents is protected by locating non-residential uses away from the residential and communal areas.</p>	<p>Consistent with national policy.
